

Dave's Story

Dave is a 45 year old Sales Professional with type 2-Diabetes* & heart disease* controlled with prescription medications. Of late his male performance has been on the decline. He is reluctant to try prescription male performance drugs due to their potential to have adverse interactions* with his heart medication.

Dave's Story

He takes 2 tablets of Proxtsy about an hour before they head to Maya's apartment for an after-dinner coffee...

When the moment is right his performance is back to his peak.* Maya wants him to stay. She smiles as she drifts to sleep....
